### DETAILED ACTION

1. Preliminary amendment dated 9/21/06 has been received and entered. Claims 1-9 are currently pending.

#### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beaufort (2003/0067532).

Re claim 1, as depicted in figs. 6, 7A and 7B, Beaufort discloses a test device comprising a means for supplying ink from the ink cartridge (110) to a test print surface (130) and also supplying ink off of the test surface (e.g., revealing the test patch (70) on the test surface (130) visible through a window (234) to a user (36)) (Pg. 3, pars. 32-34). While Beaufort does not specifically disclose a strip of paper, Beaufort discloses various test surfaces may be used for receiving the test print toner or ink and the test surfaces are provided only for the test print operation (Sec Pg. 3, par. 34). This teaching clearly infers and/or suggests the use of a strip of paper.

Re claim 4, as depicted in fig. 7A, Beaufort discloses positioning the ink cartridge (110) above the strip of paper (e.g., test printing surface 130) (Pg. 1, pars. 10-11).

***Allowable Subject Matter***

4. Claims 2, 3, and 5-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***
